Profile

Motivated BSc in Information Technology graduate passionate about web development and proficient in programming languages. Skilled in creating dynamic web applications, excelling in coding competitions with strong problem-solving and teamwork abilities.

Employment History

Graphic Designer

May 2023 - July 2023

Campus Credentials

During the graphic design internship, I enhanced my skills in design tools and software like DaVinci Resolve and Figma. Guided by experienced professionals, I improved creativity, attention to detail, and problem-solving abilities. The internship complemented my programming and web development skills.

• BeatBlogs

BeatBlog is a dynamic and interactive web application developed using the MERN (MongoDB, Express.js, React.js, Node.js) stack. As the lead developer, I conceptualized, designed, and implemented this project to provide users with a seamless blogging experience coupled with technology and programming.
